

2017 ZJUBTV Internal Course Week1

Learning Resource:

1. Video from IMooc: <http://www.imooc.com/learn/9>

Tips: Imooc is a great learning resource for coding. If you are interested in coding or want to preview ahead of some web-developing knowledge, you can join the course in the Imooc. Most of them is free.

When you had the basic concept and know the usage of HTML&CSS through the video above, you are recommended to go to W3School to have a glimpse at all the tags in HTML and styles in CSS.

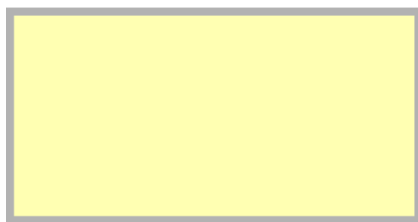

2. W3School: <http://www.w3school.com.cn/html/>

Tips:W3School is used as a manual, when you want to know the usage of a certain tag or style sheets, you can refer to this website.

If you have any question about HTML&CSS when studying or doing the assignment, please ask us in the Wechat Group or QQ Group.

Week 1 Assignment about Basic HTML&CSS (Due: 5:00 pm October 7,2017)

Draw three blocks similar to the following one in a webpage

Requirement & Hint:

- 1.The color of the block can be any color you like.
- 2.The width of the border should be larger than 4px, and its color should be black.
- 3.Opacity is required. In the pictures above, the opacity of the blocks is 0.3.
- 4.The space between the blocks can be created by adjusting the margin's width.

5.You should use the concept of “class” in CSS to set the color of the blocks.

6.You can change the size of HTML tag to create a block.
